

Learner profile: Laura and Kim

Laura Henostraza and Kim Gudenus have both studied interior design at Macbeth Centre

“

Laura: I joined this course after deciding to start my own business in vinyl wallpapers. I had the business background but I needed the industry understanding of interior design.

After meeting Kim in class, I asked her to join my business just as I was about to begin Deco Feel.

During class our tutor taught us the basics of interior design and imparted her experience of the industry.

The course helped me develop my eye and identify different fashions so I had more confidence when it came to choosing my stock.

We learnt a lot including how to spot

industry trends, put mood boards together and understanding elevation drawings.

Kim: I have taken many courses with this organisation. Laura and I became friends and I began to understand Laura's vision. I was really impressed.

I enjoyed learning how to mix colours and textures to give a different impact.

Our collection has a good mix of classic and eccentric styles. We now have a wonderful collection of self-adhesive textures and patterns.
