

Studying bookkeeping has given Shamir skills to progress into further education

Learner profile: Shamir Hindocha

Shamir has studied bookkeeping at levels 1 and 2 at Macbeth Centre

“

I took Bookkeeping level 1 and 2 at the Macbeth Centre last year. I found the course really useful in helping me reaffirm that the accountancy career path is right for me.

In 2011, I was in further education and had to leave due to illness. When I recovered, I felt as though I had gone off track in reaching my goal to become an accountant.

Before jumping back into the deep end, I wanted reassess my skill set and regain some confidence. I was able to discuss my situation with my tutor prior to joining and she was understanding and ensured that I felt supported.

I was able to refresh my knowledge through the curriculum. Each lesson refreshed my existing knowledge and confirmed my bookkeeping ability. As I progressed to level 2 I felt that I could revisit further education.

By the end of the courses, I regained my confidence and got back into the right mind set. After completing level 2, I was able to continue onto further education and I am currently studying for degree in accounting and finance.

I may even come back for the CV workshop, but for now I am now on track and looking forward to a career in accounting.
